AN EXPLOSION OF GAS!

From a Lighted Candle Demolishes a Dwelling House, Kills One Person and Fatally Injures Others.

PITTSBURG, Pa., Jan. 22.—At 9 o'clock this morning an explosion of sewer gas in the cellar of a small frame tenement house on Ask alley near Penn avenue, totally demolished the house and killed one person fatally injuring more or less eight others.

Mrs. Theodore Ringer, who, with her family of five, occupied the second floor, went into the cellar with a lighted candle in her hand. On entering the cellar a terrific explosion occurred, lifting the house from its foundation. The building collapsed and fell back in the cellar, burying the eleven occupants in the debris, which immediately took fire.

An alarm was turned in and the police and fire department were quickly at work. The first recovered was that of John Slep, who with his wife and daughter, occupied the first floor. Slep died en route to the hospital.

His wife is terribly burned and bruised and cannot recover. The daughter is also seriously injured. Mrs. Ringer was also badly burned and cut and probably fatally injured. Mr. and Mrs. Paul Welcher, grand-parents of Mrs. Ringer, occupied the attic floor, and are also badly hurt. Mrs. Ringer's family of five children were painfully injured, but will recover. The house was owned by the Hagan heirs.

LITTLE ROCK, Ark., Jan. 22.—The Arkansas Democrat building, the handsomest newspaper office in the southwest, was completely destroyed by fire last night. A lamp exploded in a room on the third floor, occupied by E. Clark and family, and instantly after the explosion Mrs. Clark jumped out of the window, and, besides fracturing both legs, sustained serious internal injuries. Clark was badly burned but escaped. The loss is about $30,000.

LITTLE TICKS.

Stray Telegraphic Items As They Come Over the Wires Bunched Together.

SAN FRANCISCO, Jan. 22.—The California Athletic club received a dispatch yesterday from Slavin, the Australian, refusing to fight Joe McAuliffe, of San Francisco. McAuliffe, who was defeated by Peter Jackson, is so anxious to get another chance at the colored champion that he posted a forfeit yesterday for a match with Jackson for $500 a side. McAuliffe does not care whether the California club gives a purse or not. Before Jackson went to England he promised McAuliffe that on his return he would give McAuliffe the first fight.

GRAND HAVEN, Mich., Jan. 22.—A healthy blizzard from the north-west has prevailed here since Monday evening. The mercury last evening was seven above and steadily falling, the coldest, so far, of this winter. The steamer Wisconsin is sheltered here. The Roanoke left Milwaukee yesterday morning, but as she has not as yet arrived here, it is presumed she put back.

SACRAMENTO, Cal., Jan. 22.—The Central Pacific is now open from Prospect, five miles east of Towles, to Truckee, with the exception of a mile and a half stretch to Cascade, which has not been worked on at all.

BOSTON, Jan. 22.—The First Parish Church (Congregational-Unitarian), of West Roxbury, an old land mark, was burned at 2:30 A. M. to-day. Loss, $5,000; insured. The building was of wood, two stories and a half high.

NEW YORK, Jan. 22.—A special from Pittsburg says that the Westinghouse Electric company, which has its main plant almost in the heart of Pittsburg, has decided to move out of the city. It will erect, as soon as possible, immense new works near Brinton on the main line of the Pennsylvania railroad, about twelve miles from Pittsburg. This removal is made necessary on account of lack of space and the cost of enlarging a plant in this city.

SYRACUSE, N. Y., Jan. 22.—Early this morning a prize fight took place about six miles from this city, between Harry Burns, a young plumber from New York, and Prof. J. G. Easterly, middleweight champion of Michigan and heavy-weight champion of Florida. The stakes were $100. After fighting six rounds Burns claimed a foul, which was not allowed, and Burns declined to go on. The referee declared in favor of Easterly.

NEW YORK, Jan. 22.—Eugene Hornbacher, of New York, and Edward Daily, of Providence, fought with two ounce gloves at a resort on Long Island for a purse of $500 early this morning. From the first to the twelfth round there was scarcely a blow struck, but from this point to the twenty-seventh round the fighting was spirited.

Daily seeming to have slightly the advantage. Then Hornbacher got his second wind and did furious work. In the thirtieth round Daily was so badly punished that he went down. His second claimed a foul but the referee refused to allow it, and as Daily had not arisen at the end of twelve seconds the fight was given to the New York man.

TRAGEDY IN TEXAS.

A Nephew of the Late Judge Terry Shot and Killed.

GALVESTON, Texas, Jan. 22.—A terrible tragedy was enacted in the court house here yesterday, in which Kyle Terry, nephew to the late Judge Terry, was instantly killed and two men badly wounded. The killing was the outcome of the Fort Bend trouble, which resulted some time ago in a battle between the citizens of Richmond.

A large special venire of citizens had been summoned for jury service in these cases to appear at the court house at 10 o'clock. A few minutes after that hour Kyle Terry and his brother, Captain David Terry, of California; Judge Parker, Judge Weston, Dr. Gale, and some others entered the front door of the court house. Terry had just reached the second step when the first shot was fired. It struck him under the right arm and came out of the left breast, and literally tore his heart to pieces.

There was a lull and then four or five shots were fired from different directions. One passed through the arm of Judge Weston, of Fort Bend county, and other through the leg of Henry Pitte, a Galveston citizen.

Eye witnesses say three men were shooting, naming them as Val Gibson, who killed Terry and whose brother Terry had killed at Wharton; Dan Ragsdal and young Mitchell, all from Fort Bend county, and all jay birds.

Immediately after the shooting six arrests were made. The principal was Val Gibson, who fired the first and only fatal shot. He is a young man about twenty-five years old and takes the matter coolly.

SORELY AFFLICTED.

The Farmers Around Evansville Battling with a Flood and Influenza.

EVANSVILLE, Jan. 22.—The river, after receding one-tenth of a foot, came to a stand last Monday night and commenced rising again at an early hour yesterday morning.

Reports from points both above and below the city are that the water is steadily increasing the already almost immense loss of corn.

To add to the inconvenience and loss sustained by farmers in the bottom lands various diseases are raging among them, and it is reported that few have escaped the influenza. Many cases have developed into pneumonia. In Walnut bottoms, thirty miles below this city, typhoid malaria has assumed the form of an epidemic, from which a number of deaths have occurred.

An Immense Company Organized in New Jersey.

TRENTON, N. J., Jan. 22.—A certificate of incorporation of the American Tobacco company was filed here yesterday. The capital is placed at $25,000,000, among the incorporators are Messrs. Linter and Pope, of Richmond, Arentz and J. B. Duke, of New York, B. N. Duke and Watts, of Durham, Emery and Butler, of Brooklyn, and Kimball, of Rochester. It is said that most of the large cigarette plants of the country are to be absorbed by the company or trust.

The two smaller checks were taken to the First National bank, and pronounced forgeries. The whereabouts of McNeely is not known.

ELOQUENT LIPS SEALED!

Death of Hon. John McSweeney, Ohio's Famous Criminal Lawyer --Other Deaths.

WOOSTER, Ohio, Jan. 22.—Hon. John McSweeney, the most prominent criminal lawyer in Ohio, died at his home in this city at 11 o'clock last night, from acute pneumonia.

Mr. McSweeney was born near Rochester, N. Y., about sixty-five years ago. His parents were from Innesfallen, Ireland, and settled in Stark county, this state, when he was an infant. The boy received his schooling at the Western Reserve college, and studied law with John Harris, in Cincinnati. In 1845 he came to this city.

He was six feet in height, straight, powerful, and had a rich and melodious voice. He swayed a jury with magnetic eloquence, and made the most hopeless case seem bright. Although one of the wealthiest men in Wayne county, McSweeny was unostentatious in both dress and domestic life. He had two daughters and one son, the latter ex-prosecuting attorney of Wayne county.

Politically, McSweeny was a democrat, but he never sought office. He paid considerable attention to politics. He loved his family and his profession. He was engaged to help prosecute the men accused of the murder of Detective Hulligan, and the Star Route cases. His wife died about four years ago.

AMSBURY, Mass., Jan. 22.—Mrs. Polly Osgood, who celebrated her 100th birthday January 10, died last night of pneumonia.

CELINA, Ohio, Jan. 22.—The grip claimed its first victim here in the person of Judge David J. Roop, who died last evening, after an illness of but a few days. Judge Roop was the first man in the county to enlist in the late war and served until its close.

BLOOMINGTON, Ill., Jan. 22.—Mrs. Lyman W. Betts died yesterday, aged ninety, from pneumonia, superinduced by the grip. She was the cousin of the late United States Senator David Davis.

DIED IN A BATH TUB.

The Sudden Death of Professor Bowen of Harvard College.

CAMBRIDGE, Mass., Jan. 22.—Francis Bowen, one of the oldest professors of Harvard college, died at his home in this city yesterday morning. He had been failing gradually during the past few years, and a month ago resigned his position as an active worker in the college. No fears for his health were entertained, however, and his death was a serious shock to his friends.

He rose late yesterday morning and entered the bath room. After he had been there some minutes his family became alarmed and on forcing open the door found him dead in the tub. Dr. Morrill Wyman, one of his classmates, was summoned and pronounced death to be the result of a shock from entering the water and a consequent failure of the heart. Professor Brown was seventy-eight years of age.

It is believed that there will be a deficit of 400,000 pounds. The Sultan desires a statement.

STOLE HIS HOGS.

Farmer Young Loses Two Nice Porkers.

There are some thieves who are willing to steal almost anything they can get their hands on, but Farmer Young, living east of the city, can bear testimony to the fact that there are thieves who will steal things they do not have to lay their hands on for the purpose of committing the felonious act.

A night or two ago, when all the occupants of his farm house were wrapped in the arms of sleep, some person or persons entered on his premises, and, approaching the pen where his hogs were enjoying a midnight snooze, unmindful of robber raids, deliberately and with felonious intent, took two of his fattest porkers and drove them away.

This is the last Farmer Young has heard of his two stolen hogs and he is of the opinion that long ere this they are butchered and furnishing some families meat for their tables.

He has no clue to the thieves.

HE IS A "LULU."

Theodore Baatz, the Defendant in Paternity Proceedings.

Theodore Baatz, who lives on Bass street, was arrested and arraigned before 'Squire Hays last evening at the instigation of Emma L. Meese, who alleges that the defendant is the father of her babe. Miss Meese is a domestic in the household of Farmer Dave Robinson.

Baatz is married, hence some sensational features.

On the second of last September he was arrested on a charge of bastardy and brought into France's court upon the affidavit of a Miss Riedorf. The case was adjusted by Baatz marrying the girl. On December 14, before the same justice of the peace, she filed an affidavit charging wife desertion and a fine of $24 was assessed which was paid.

The present case is still more interesting and promises to bring the defendant into unpleasant notoriety.

The case was continued until next Saturday. Baatz was released on $500 bond which was furnished with William Baatz as surety.

PETITIONS GRANTED.

The County Commissioners Grant Street Railway Franchises To-day.

The county commissioners to-day granted a franchise to the Land and Improvement company to operate a street car line conditionally that the power for street cars be either horse or motor and not electricity unless the wires be placed underground. It is likely the company will build an electric railway.

A franchise was also granted to W. T. Abbott and others for a street railway in the southeastern part of the city, with the same conditions.

The commissioners will be likely to grant the petition of C. L. Centlivre to run a line to the institute for feeble minded youths.

WASHINGTON.

Two Reports in the Smith-Jackson Contested Election Case-- The World's Fair.

WASHINGTON, Jan. 22.—The Smith-Jackson contested election case from the fourth West Virginia district, was discussed by the full committee. Party lines were strictly drawn in the vote and it was announced that two reports would be made to the house, the republicans favoring Mr. Smith and the democrats, Mr. Jackson.

It was evident before the meeting had been long under way that the members had made up their minds on the case and as a consequence there was but little talk. Mr. Dalzell was preparing the majority report favoring the seating of Mr. Smith and Mr. Crisp that of the minority in favor of Mr. Jackson taking his seat.

WASHINGTON, Jan. 22.—The world's fair committee of the house met to-day and after a short session, decided to report to the house to-morrow that the committee had come to no conclusion.

In the house to-day a number of bills were introduced and referred. Bill was passed providing that the terms of the circuit and district courts shall begin on the third Monday in May and third Monday in November of each year.

Senate joint resolution appropriating $250,000 for the removal of obstructions from the Missouri river between St. Joseph and its mouth, was reported back with a substitute reducing the appropriation to $75,000 and appropriating $75,000 for the removal of snags from the Columbia river, Oregon. The substitute was agreed to and the joint resolution, as amended, passed.

The house then in committee of the whole, proceeded with the consideration of the Oklahoma town-site entry bill.

In the senate to-day Mr. Chandler offered a resolution, which went over under objection, authorizing the immigration committees of the two houses to investigate the working of Federal and state immigration laws and the contracts made by the secretary of the treasury under these laws with state commissions; also a resolution, which went over under objection, calling on the attorney general for the report of United States Marshal Burton concerning the maltreatment of Henry J. Fause, at Aberdeen, Mich. The senate resumed consideration of the bill praying for a census of farm mortgages.

The East Room and the state dining-rooms were profusely and beautifully decorated with potted plants and flowers, as usual on such occasions, while the Marine Band, stationed in the vestibule, enlivened the occasion with appropriate strains of music.

A Bold Robbery.

COLUMBUS, Jan. 22.—Yesterday forenoon a colored man who has been loitering about this city for some time sneaked into the rear door of Mrs. C. W. Smith's milinery establishment on Washington street, and took from a drawer $190 in paper money, making his escape without attracting the attention of Mrs. Smith, who was waiting on customers. The money was not missed for some time, when Mrs. Smith made known her loss to the police. Some time during the early morning hours a colored man was seen leaving the back door. The thief took a north-bound Jeffersonville, Madisonville and Indianapolis train. Officers are after him.

Highway Robbery.

BLOOMINGTON, Ill., Jan. 22.—Frank McCracken and Matt James, sons of wealthy farmers of Pleasant Hill, were arrested this morning, charged with highway robbery. It is said they "held up" and robbed a peddler of $100 and a gold watch.

WEDNESDAY, JAN. 22, 1890.

GOVERNOR HOVEY has appointed I. H. C. Royce, of Terre Haute, a trustee of the state normal school to succeed Joseph Gilbert.

CHIEF JUSTICE CORLISS, of North Dakota, refuses to accept railroad passes. He is a youngster, but the people evidently knew what they were about when they put him where he is.

IT is reported that in the past two years certain persons in Mexico have coined about 5,000,000 United States dollars, which have been shipped across the border and circulated in Texas, New Mexico and Arizona, and in other districts, and that the counterfeiters made a profit of twenty-eight cents on each of the spurious dollars disposed of.

ONE of the duties of the present legislature in Ohio will be to redistrict the state for congress. At present the delegation stands sixteen republicans and five democrats. The gerrymandering this time will be done by the democrats, and as the Republicans made the last apportionment they should not kick too vigorously against taking a dose of their own medicine.

AT the last meeting of the Kansas State Board of Charities a contract was made with the packing houses of Kansas City, Kas., to supply the various institutions of the state under the control of the board with meat for the current year. This action has been severely criticised by a number of the Kansas newspapers upon the ground that it was the duty of the board to patronize home industries, and to purchase the meat for the state from local butchers.

IT is a law of good society in China that young widows never marry again. Widowhood is therefore held in the highest esteem, and the older the widow grows the more agreeable does her position become with the people. Should she reach fifty years she may, by applying to the emperor, get a sum of money with which to buy a tablet on which is engraved the sum of her virtues. The tablet is placed over the door at the principal entrance to her house.

THE New York Presbytery has begun a series of meetings, which will be held daily, to consider the proposed revision of the confession of faith. The report of the digestion committee provides that the third chapter after the first section be so recast as to include only: The sovereignty of God in election, the general love of God for all kind, the salvation of Christ Jesus provided for all and to be preached by every creature. It was also recommended that the tenth chapter be so revised as not to appear to discriminate concerning "infants dying in infancy."

THE Gazette editor is seeking information on the tariff question. He is startled by the publication of some of the statistics and is evidently slow to admit that it is high tariff, which, under the garb of protection to labor, is robbing unjustly the people of this country of much of their hard earnings. The tariff on many of the prime necessaries of life in the United States is 47.4 per cent., and yet the Gazette can not understand how, when a man purchases these articles, 47.4 per cent. of his money is expended for tariff duties. Don't shut your eyes, neighbor, to facts. Political prejudice can not rob mathematics of their truth. It is a fact that the tariff tax on many of the prime necessities of life in this country is 47 per cent. and it is more than it is in most of the other great nations of the globe. We pay that tax on these necessaries and on the raw materials of manufacturers, while on the luxuries only 20.6 per cent. is paid. Germany pays on necessities 41.5 per cent., France 43.5, and almost all of the great powers are lower in this respect than the United States. We repeat, the Gazette ought to study this tariff question.

SECRETARY WINDOM'S bill, which has at last been made public, is substantially the measure outlined in his annual report. Its principal provisions, briefly stated, are that any one may deposit silver bullion at any United States mint or assay office that the secretary of the treasury may designate, and receive therefor treasury notes to the amount of the market value of such bullion at the time of making the deposit; that these notes shall be redeemable either in silver bullion at its market value at the time of redemption or in gold coin at the option of the government, or in silver dollars at their face value at the option of the holder; that bullion shall not be received at a higher price than $1 for every 371¼ grains of pure silver (the amount of pure silver in a dollar); that the secretary of the treasury, with the approval of the president, may temporarily suspend the receipt of bullion when he is satisfied that speculators have made an "arbitary, nominal or fictitious" price, and that so much of the act of February 28, 1878, as provides for the purchase and coinage of from $2,000,000 to $4,000,000 worth of silver bullion monthly, be repealed.

TARIFF REFORMERS MEET.

The annual convention of the Indiana Tariff Reform league met yesterday, at Indianapolis. The impression was general all over the state that the annual meeting was not to be held until March 4, one year from the date of the organization of the league. The constitution, however, provides the meeting shall be held on the third Tuesday in January of this year.

The call brought to the city, however, thirty-five or forty of the most active workers in the cause, among them Wm. D. Hunter, of Lawrenceburg; W. C. Ball, of the Terre Haute Gazette; P. H. McCormack, Columbus; Robert Gregg, Aurora; T. H. Byrnes, Evansville; John S. Campbell, Rockville; John B. B. Latchen, Wabash, and others. It was decided to abandon the Masonic hall meeting, and in its stead an informal conference was held at room 3, Grand hotel. The officers of the league, Edgar A. Brown, president; M. W. Lee, general secretary, and Thomas J. Hudson, corresponding secretary, were all present. Mr. Lee, in addition to his duties as general secretary, has acted as organizer for the league, and has devoted nearly all his time for the last nine months in establishing branch leagues throughout the state.

In a statement before the meeting of what the league is accomplishing, he said that Indiana was now the best organized state in the union, although the work had only been going on nine months. About seventy counties, he said, had been fairly well organized, and it was expected to have every county thoroughly organized by the time the league is a year old. Not a great deal has been done in the way of township organization, but that work, he said, would be pushed. The plan is to establish a branch league in each township in the state, which shall be to the county organization what the latter is to the state organization.

Speaking of the growth of tariff reform sentiment, Mr. Lee said that among the common people, the people who had no political aspirations or selfish motives to gratify, it was growing rapidly. He believed that 70 per cent. of the voters of Indiana were already in favor of tariff reform. "I feel confident," said he, "that we are 100 per cent. stronger in Indiana than we were a year ago." Reports of the work being done all over the state were presented and showed that tariff reform was marching at a quickened pace in every locality.

A proposition to hold a state convention of tariff reformers in Indianapolis on March 4 was discussed, and it was practically agreed that such a meeting should be held. Every league in the state will be asked to send its quota of delegates to this convention.

A WASHINGTON letter to the Chicago Herald says: One hears considerable talk here, too, about the political future of Judge Gresham. Opinions vary all the way from a conclusion that he has no future at all to a frank and bold statement that he will be the nominee in '92. So far as Indiana is concerned it is pretty certain that if called upon to-day to decide between Harrison and Gresham the Hoosiers would prefer the latter by a large majority. The professional politicians and Grand Army people are going for Alger, and the office-holders may be languidly for Harrison. If Blaine continues to improve in health and self-confidence as he has improved during the last few months, he could send Harrison and Alger to the bottom of the sea. Some of the western republicans are hoping that a conservative spirit will seize the party in '92 and swing it back toward a republican of the stripe of Judge Gresham.

A RECENT comparison of figures shows that sugar pays the heaviest amount of duty of any single imported article, wool, steel, iron, silk and cotton coming next on the list in the order named. The figures for 1888 stand: $50,647,014 paid in tax, on sugar, and this when the doors of the vault can hardly be crowded together on Uncle Sam's treasure.

"Mr. Barnes of New York" has probably had the greatest circulation of any novel in the last decade, not even excepting "Called Back," and aside from the immense number circulated in America, one English edition bears upon its title page 161st thousandth. As there have been no less than five English editions of the book, which have been translated into German and French, it probably has had a circulation exceeding half a million copies, aside from numbers published in magazines and papers, both in England and Canada, in serial form. The dramatic version of "Mr. Barnes" comes to the Temple to-morrow evening, and all who have read the book will surely see the play.

"Othello's occupation's gone." He used to spend days and nights cursing the fates and the rheumatism. Now he only lies down and laughs to think how easily he was cured by Salvation Oil, at 25 cts.

IS SHE CAST OUT.

A Little Waif Sent From This City to Huntington.

The Huntington Democrat says: "There arrived from Fort Wayne on the 2:25 train on the Wabash this afternoon a little girl, about four or five years old, bearing a note on which was written, "To be taken to the Orphans' home, Huntington, Ind." She came alone excepting that a gentleman on the train, who saw she was unaccompanied, had taken care of her. She cried violently and between her sobs she gave her name as "Clara Dense." No name is given in the note. She was taken in care by Station Agent Goring, who notified the authorities at Fort Wayne so they can find out who sent her here.

"The gentleman who cared for her on the train informed the reporter that the woman who put her on the train said the child's mother would meet her at the train here and, as that does not compare with the note, it looks like a queer case. He says also that he did not like the looks of the woman.

"The little waif was taken by Mr. A. G. Martin to his home on East Market street, where she will receive the care of tender hands until the mysterious circumstance can be fully explained."

TO BENEFIT THE POOR.

The Entertainment Given at Library Hall Last Night.

Last evening the dramatic reading of Miss Susie Dunovan, attracted a large crowd to Library hall.

The program was interspersed with musical selections by home talent.

The entertainment was given under the auspices of St. Vincent de Paul's society for the benefit of the poor.

The chorus was one of the enjoyable features of the entertainment. The selection, "Come Where the Lillies Bloom," was the first number after the opening selection by Reineke's orchestra. Those who participated were Misses Annie Summers, Lizzie Collins, Emma Ehinger, Tillie Nusbaum, Florence Clark, May Hedekin, Kitty Laughlin, Katie Sullivan, Julia Hedekin, Eva Beaubien; accompanist, Miss Lizzie DeWald.

An instrumental duet, "La Gallina," was then rendered by Misses Annie Summers and May Hedekin.

The instrumental trio, which was to have been rendered by Misses Annie Summers, May Hedekin and Carrie Trentman, was not given, on account of the illness of Miss Trentman.

"Rizpah," by Mrs. L. M. Blinn, was unusually interesting throughout.

The final chorus, "The Mermaid's Evening Song," was rendered by Misses Annie Summers, Florence Clark, Kitty Sullivan, Emma Ehinger and May Hedekin.

The readings by Miss Dunovan were all interesting. Their delivery showed refinement and ability.

SUPPRESSING GAMBLING.

The Mayor Expresses a Determination to Run Out Gamblers.

Mayor Harding has given special instructions to Chief Wilkinson to suppress gambling.

"Gambling must be stopped in this city," said the mayor this morning, "and it must be stopped soon, too."

There are in this city a number of gambling rooms in full blast every night, or the professionals who make their money in this way would not be loitering here.

The mayor thinks he has effected an observance of the saloon law and he will now turn his attention to the gamblers.

Last winter Mr. H. E. Kinkade, collector for the United States Express company, at Des Moines, Iowa, was severely troubled with chilblains. The swelling and intense itching of his feet was a great annoyance to him. He tried several remedies without benefit, but fortunately bought a bottle of Chamberlain's Pain Balm. He says he only applied it three times until his feet were entirely well and free from itching and swelling. For sale by Geo. H. Loesch.

PAYING FOR HER WRINGER.

You have heard about all sorts of unique ways of keeping scores for which barkeepers are hung up, and I suppose you have heard all the stories that are afloat, but I think an old woman who lives up our way and does washing for my family has invented something new.

She is a very old woman—used to be a slave—and is as ignorant as an unshucked ear of corn. She can't read figures or anything. A short time ago she bought a wringer on the installment plan, and inasmuch as she is very suspicious of everybody, and is inclined to think everybody is trying to rob her, it puzzled her a great deal to devise some way of keeping count of the money paid at different times on her purchases. But she struck it. I was over at her house the other morning to see her about some extra work my wife wanted done, and noticed on the window-sill several lead pencil circles of different sizes, but each drawn very carefully, as though around some circular substance. I asked auntie about it, and she told me of the wringer, and that that was the way she knew how much she had paid. The small rings were the size of a quarter, and meant that so many quarters had been paid, and the large ones meant half dollars and dollars. She just counted up the rings when she wanted to know how much she had paid on her wringer, and could tell as readily as though the money were before her. And yet they say figures are a necessity.

Body covered with scales. Itching terrible. Suffering endless. No relief. Doctors and medicines fail. Speedily cured by Cuticura at a cost of $5.

Cured by Cuticura.

If I had known of the Cuticura Remedies twenty-eight years ago it would have saved me $300.00 (two hundred dollars) and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body and got under my nails. The scales would drop off of me all the time, and my suffering was endless and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I took ..... and ..... Sarsaparillas over one year and a half, but no cure. I went to two or three doctors, and no cure. I cannot praise the Cuticura Remedies too much. They have made my skin as clear and free from scales as a baby's. All I used of them were three boxes of Cuticura, and three bottles of Cuticura Resolvent, and two cakes of Cuticura Soap. If you had been here and said you would have cured me for $200.00, you would have had the money. I looked like the picture in your book of psoriasis (picture number two. "How to Cure Skin Diseases), but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

OUR RAILWAYS.

The Rank of States for Number of Miles of Track--The Day's Local Budget.

After carefully revising its figures the Railway Age says it appears that a little more than 5,200 miles of track were laid last year. The aggregate mileage of the country according to the Age is 161,270, or nearly enough to encircle the planet at the equator six and a half times.

Illinois stands at the head of the state of the union with respect to railroad mileage. It has 10,079 miles. Kansas comes next with 8,815, Texas next with 8,494, Iowa next with 8,455, and Pennsylvania fifth with 8,417. Kansas is largely indebted for its second position to its great extent from east to west, and the fact that it is traversed by Pacific roads.

Illinois ranks in 1890 as it did in 1870, twenty years ago, though its mileage has more than doubled, But Kansas has leaped from the tenth to the second position and Texas from the twenty-sixth to the third. Iowa has advanced one notch, from fifth to fourth. But Pennsylvania has gone back from second to fifth, New York from third to sixth, and Ohio from fourth to seventh. Michigan was the eighth in 1870 as it is 1890, but Indiana has dropped from third to ninth. As a rule and naturally the greatest growth has been in the west and southwest, though there has been great increase of mileage in all parts of the country.

ALWAYS BUY YOUR TICKETS.

In the case of Reese against the Pennsylvania Railroad company, appealed from the common pleas court of Pittsburg, Judge Mitchell, in the supreme court of Pennsylvania, Monday, read the decision of the court upholding the railroad company. Plaintiff boarded a local train, near Pittsburg, without a ticket. The conductor, in accepting cash payment of the fare, made the customary extra charge of ten cents, returning to the passenger a coupon good for that amount at the company's ticket office.

Reese paid the extra ten cents under protest, claiming that it made the fare more than the three and a half cents per mile allowed by the terms of the company's charter. He then brought suit to test the legality of the extra charge. The case was decided in his favor in Pittsburg, and the railroad company took an appeal to the supreme court, which reversed the judgment of the common pleas court.

The opinion read by Judge Mitchell says the company offered plenty of facilities to passengers for the purchase of tickets before getting on the trains, and were, therefore, justified in making the extra charge, especially since it gave a coupon providing for the refunding of such extra charge.

NARROW ESCAPE.

Two or three mornings ago there came near being a serious railroad accident on the Pennsylvania road, near Monroeville. The east bound mail train due at 6:22 a. m., side-tracked at Monroeville for the limited passenger, which goes west early in the morning.

The siding was so filled with freight cars that the Pullman sleeper attached to the mail could not leave the main track. It is claimed by the train men of the mail that the limited, which does not stop at Monroeville, was flagged. This is denied by the limited train men, who claim that the first intimation they had of anything being wrong was when they saw the sleeper on the track ahead of them. The engineer reversed his engine, and he and his fireman jumped from the train, believing that a collision was inevitable.

Luckily for life and property the limited come to a standstill before the sleeper, with its load of unsuspecting human freight, was reached, and life and property was saved. It is understood than an investigation is being made by the officials of the road in order to determine who was to blame.

The bill to lease the Chesapeake and Ohio canal has passed the house and senate of Maryland, and it is said that the Pennsylvania railroad company will be the lessee.

The work which the Indiana Car-service association is doing has enabled several of the roads to rake off one or two switching engines and crews, saving $25 to $50 a day to such roads.

Wabash Plain Dealer: "Willie Marquis, the youthful train wrecker, will plead guilty in the circuit court next week and throw himself on the mercy of the court. The railroad officials are willing the minimum penalty should be inflicted and Marquis will probably escape with two or three years in the penitentiary."

The Pennsylvania Company Voluntary Relief association of the lines west of Pittsburg has had a great boom lately. About 12,000 employes are now members of it, the increase during December being 5,600. The death benefits range from $250 to $2,500, and sick benefits are also paid, the amount of which is based upon the amount of insurance which the beneficiary holds.

To-day Ed Mundt, the assistant electrician at the Pittsburg shops, was married to Miss Mary Wittie, an accomplished young lady of New Haven. After the marriage they left for an extended tour of the west, taking in Chicago, St. Louis and other points. Yesterday the employes of the Pittsburg, Fort Wayne and Chicago shops, presented to Mr. Mundt, a beautiful and costly chair as a token of respect.

The secretary of division No. 145 of the Brotherhood of Locomotive Engineers is short in his accounts $3,000. This division is composed of engineers on the eastern division of the New York Cetral road, and is one of the wealthiest divisions in the Brotherhood organization. The money used had been contributed for life insurance. One of the officials of the Brotherhood states that this is the first time in the history of the organization that the secretary and treasurer have been short and dismissed from the order.

When the time comes for the Pennsylvania company to build double tracks the whole distance it will only need to fill in a few miles between side tracks. The Lima Gazette says: "About seventy-five Italian laborers arrived at 4 o'clock last evening from Pittsburg. They are to be employed on the grade of the new track which is to be put down between Lima and Elida, on the Pittsburg, Fort Wayne and Chicago road. They arrived bag and baggage and will camp along the route. Work will be commenced on this end of the grade and be extended to Elida. When completed this new track will furnish an outlet to the continual freight blockade on that road." A force of men are working near this city.

Ringing Noises

In the ears, sometimes a roaring buzzing sound are caused by catarrh, that exceedingly disagreeable and very common disease. Loss of smell or hearing also result from catarrh. Hood's Sarsaparilla, the great blood purifier, is a peculiarly successful remedy for this disease, which it cures by purifying the blood. If you suffer from catarrh, try Hood's Sarsaparilla, the peculiar medicine.

The True Elixir Of Life Hood's Sarsaparilla

Hood's Sarsaparilla purifies the blood, builds up weak and debilitated systems, gives strength to weakened nerves, overcomes that tired feeling, tones the digestive organs, invigorates and regulates the kidneys and liver, expels disease and gives vigorous health. Young people say: "It is the best medicine we ever took." Old people say: "It makes us feel young again."

THE papers report an uncommon number of cases of men who become suddenly insane and attack their wives and children with murderous intent. The omission of an unmistakable sign of homicidal mania, whereby the victim might be secured before disaster occurs, seems to be an oversight of Providence. Come to think of it, though, the sign may be there in each case, if the unscientific mind could but read it.

REPRESENTATIVE WILLIAM MARTIN, of Texas, who had a good deal of fun poked at him during the last session of Congress, is the heaviest smoker in official life at Washington. He is always smoking cigars. He is not particular as to the brand, quality, style, or price. All he requires of a cigar is that it draw well.

IN Russia women are not allowed to practice medicine before reaching the age of forty years. In free America every woman feels herself fully qualified to practice medicine as soon as she owns a baby or can borrow one of her neighbor to experiment on.—*Terre Haute Express.*

Nature in Convulsion

Is terrific. Volcanic eruptions cyclones, earthquakes are awfully and tremendously picturesque, but scarcely desirable to emulate in action and effect by the administration of remedies which produce convulsion and agony in the abnormal portion of the human frame. Such is the effect of the old fashioned violent purgative happily falling more and more into disuse, and of which Hostetter's Stomach Bitters is the wholesome, pleasant and far more effective succedaneum. They weakened the intestines—the Bitters invigorates them. They left the bowels inactive, because incapacitated by ensuing feebleness. The Bitters, on the contrary, and because it enables, not forces, them to act—a vast and fortunate difference—perpetuates their activity and regularity The liver is beneficially stimulated, as the kidneys also are, by this medicine, which easily conquers, also, malaria, nervousness and rheumatism.

Language is hardly strong enough to express my admiration of the merits of Chamberlain's Cough Remedy. It is the best remedy for croup and whooping cough I have ever used. During the past eighteen years I have tried nearly all the prominent cough medicines on the market, but say, and with pleasure too, that Chamberlain's Cough Remedy is the best of all. Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It sooths the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

FRUIT HOUSE PRICES FOR 1890.

This year opens favorable for the people, so far as the Sugar Market is concerned. Last season the great sugar trust had their grip on the market and made it ruinous to the purchaser—so much so that Sugars were advanced in 60 days at least 50 per cent. This is now over—the Sugar Trust is broken and Sugars have declined to a point lower than they ever were—the last reduction is 1 cent per lb.

COFFEE, COFFEE—Rio, Java and Roasted Coffee.

There has been little change in the Coffee Market the last three months. It is too high yet. The clique has control of the market and keeps prices up. We still sell our best Rio at 20c. lb. TEAS, TEAS—Young Hyson, Oolong and Japan.

The high price of Coffee has induced a great many to try Tea—and when it is considered that a pound of Tea can be had for the price of a pound of Coffee and that it will go twice as far, it is not to be wondered at that there is a great increase in our Tea Trade. The truth is we sell double the quantity we used to a few years ago. Our motto is selling large quantities at a small profit, for we purchase direct of the Importers and then in selling direct to our customers we save three profits—the speculator, jobber and the wholesale dealer. We sell a good, rich drawing Tea at 20c. lb., and one grade as low as 10c. lb.

The eighth annual report of the state board of health was filed with the governor yesterday. It is a voluminous document, carefully compiled by Secretary Metcalf, and contains many interesting statistics and valuable information. Extracts from the report have heretofore been given, but it contains much more interesting, particularly regarding inspections of the state benevolent institutions, prisons, numerous county asylums and jails. These inspections were satisfactory, and developed the fact that extensive improvements in many needed sanitary particulars had been made in these institutions during the year.

AN EXPLOSION OF GAS!

From a Lighted Candle Demolishes a Dwelling House, Kills One Person and Fatally Injures Others.

PITTSBURG, Pa., Jan. 22.—At 9 o'clock this morning an explosion of sewer gas in the cellar of a small frame tenement house on Ask alley near Penn avenue, totally demolished the house and killed one person fatally injuring more or less eight others.

Mrs. Theodore Ringer, who, with her family of five, occupied the second floor, went into the cellar with a lighted candle in her hand. On entering the cellar a terrific explosion occurred, lifting the house from its foundation. The building collapsed and fell back in the cellar, burying the eleven occupants in the debris, which immediately took fire.

An alarm was turned in and the police and fire department were quickly at work. The first recovered was that of John Slep, who with his wife and daughter, occupied the first floor. Slep died en route to the hospital.

His wife is terribly burned and bruised and cannot recover. The daughter is also seriously injured. Mrs. Ringer was also badly burned and cut and probably fatally injured. Mr. and Mrs. Paul Welcher, grand-parents of Mrs. Ringer, occupied the attic floor, and are also badly hurt. Mrs. Ringer's family of five children were painfully injured, but will recover. The house was owned by the Hagan heirs.

The loss is about $30,000.

Stray Telegraphic Items As They Come Over the Wires Bunched Together.

SAN FRANCISCO, Jan. 22.—The California Athletic club received a dispatch yesterday from Slavin, the Australian, refusing to fight Joe McAuliffe, of San Francisco. McAuliffe, who was defeated by Peter Jackson, is so anxious to get another chance at the colored champion that he posted a forfeit yesterday for a match with Jackson for $500 a side. McAuliffe does not care whether the California club gives a purse or not. Before Jackson went to England he promised McAuliffe that on his return he would give McAuliffe the first fight.

This removal is made necessary on account of lack of space and the cost of enlarging a plant in this city.

SYRACUSE, N. Y., Jan. 22.—Early this morning a prize fight took place about six miles from this city, between Harry Burns, a young plumber from New York, and Prof. J. G. Easterly, middleweight champion of Michigan and heavy-weight champion of Florida. The stakes were $100. After fighting six rounds Burns claimed a foul, which was not allowed, and Burns declined to go on. The referee declared in favor of Easterly.

NEW YORK, Jan. 22.—Eugene Hornbacher, of New York, and Edward Daily, of Providence, fought with two ounce gloves at a resort on Long Island for a purse of $500 early this morning. From the first to the twelfth round there was scarcely a blow struck, but from this point to the twenty-seventh round the fighting was spirited.

Daily seeming to have slightly the advantage. Then Hornbacher got his second wind and did furious work. In the thirtieth round Daily was so badly punished that he went down. His second claimed a foul but the referee refused to allow it, and as Daily had not arisen at the end of twelve seconds the fight was given to the New York man.

TRAGEDY IN TEXAS.

A Nephew of the Late Judge Terry Shot and Killed.

GALVESTON, Texas, Jan. 22.—A terrible tragedy was enacted in the court house here yesterday, in which Kyle Terry, nephew to the late Judge Terry, was instantly killed and two men badly wounded. The killing was the outcome of the Fort Bend trouble, which resulted some time ago in a battle between the citizens of Richmond.

A large special venire of citizens had been summoned for jury service in these cases to appear at the court house at 10 o'clock. A few minutes after that hour Kyle Terry and his brother, Captain David Terry, of California; Judge Parker, Judge Weston, Dr. Gale, and some others entered the front door of the court house. Terry had just reached the second step when the first shot was fired. It struck him under the right arm and came out of the left breast, and literally tore his heart to pieces.

There was a lull and then four or five shots were fired from different directions. One passed through the arm of Judge Weston, of Fort Bend county, and other through the leg of Henry Pitte, a Galveston citizen.

Eye witnesses say three men were shooting, naming them as Val Gibson, who killed Terry and whose brother Terry had killed at Wharton; Dan Ragsdal and young Mitchell, all from Fort Bend county, and all jay birds.

Immediately after the shooting six arrests were made. The principal was Val Gibson, who fired the first and only fatal shot. He is a young man about twenty-five years old and takes the matter coolly.

The Farmers Around Evansville Battling with a Flood and Influenza.

EVANSVILLE, Jan. 22.—The river, after receding one-tenth of a foot, came to a stand last Monday night and commenced rising again at an early hour yesterday morning.

Reports from points both above and below the city are that the water is steadily increasing the already almost immense loss of corn.

To add to the inconvenience and loss sustained by farmers in the bottom lands various diseases are raging among them, and it is reported that few have escaped the influenza. Many cases have developed into pneumonia. In Walnut bottoms, thirty miles below this city, typhoid malaria has assumed the form of an epidemic, from which a number of deaths have occurred.

Death of Hon. John McSweeney, Ohio's Famous Criminal Lawyer --Other Deaths.

WOOSTER, Ohio, Jan. 22.—Hon. John McSweeney, the most prominent criminal lawyer in Ohio, died at his home in this city at 11 o'clock last night, from acute pneumonia.

Mr. McSweeney was born near Rochester, N. Y., about sixty-five years ago. His parents were from Innesfallen, Ireland, and settled in Stark county, this state, when he was an infant. The boy received his schooling at the Western Reserve college, and studied law with John Harris, in Cincinnati. In 1845 he came to this city.

He was six feet in height, straight, powerful, and had a rich and melodious voice. He swayed a jury with magnetic eloquence, and made the most hopeless case seem bright. Although one of the wealthiest men in Wayne county, McSweeny was unostentatious in both dress and domestic life. He had two daughters and one son, the latter ex-prosecuting attorney of Wayne county.

Politically, McSweeny was a democrat, but he never sought office. He paid considerable attention to politics. He loved his family and his profession. He was engaged to help prosecute the men accused of the murder of Detective Hulligan, and the Star Route cases. His wife died about four years ago.

DIED IN A BATH TUB.

The Sudden Death of Professor Bowen of Harvard College.

CAMBRIDGE, Mass., Jan. 22.—Francis Bowen, one of the oldest professors of Harvard college, died at his home in this city yesterday morning. He had been failing gradually during the past few years, and a month ago resigned his position as an active worker in the college. No fears for his health were entertained, however, and his death was a serious shock to his friends.

He rose late yesterday morning and entered the bath room. After he had been there some minutes his family became alarmed and on forcing open the door found him dead in the tub. Dr. Morrill Wyman, one of his classmates, was summoned and pronounced death to be the result of a shock from entering the water and a consequent failure of the heart. Professor Brown was seventy-eight years of age.

STOLE HIS HOGS.

Farmer Young Loses Two Nice Porkers.

There are some thieves who are willing to steal almost anything they can get their hands on, but Farmer Young, living east of the city, can bear testimony to the fact that there are thieves who will steal things they do not have to lay their hands on for the purpose of committing the felonious act.

A night or two ago, when all the occupants of his farm house were wrapped in the arms of sleep, some person or persons entered on his premises, and, approaching the pen where his hogs were enjoying a midnight snooze, unmindful of robber raids, deliberately and with felonious intent, took two of his fattest porkers and drove them away.

This is the last Farmer Young has heard of his two stolen hogs and he is of the opinion that long ere this they are butchered and furnishing some families meat for their tables.

He has no clue to the thieves.

HE IS A "LULU."

Theodore Baatz, the Defendant in Paternity Proceedings.

Theodore Baatz, who lives on Bass street, was arrested and arraigned before 'Squire Hays last evening at the instigation of Emma L. Meese, who alleges that the defendant is the father of her babe. Miss Meese is a domestic in the household of Farmer Dave Robinson.

Baatz is married, hence some sensational features.

On the second of last September he was arrested on a charge of bastardy and brought into France's court upon the affidavit of a Miss Riedorf. The case was adjusted by Baatz marrying the girl. On December 14, before the same justice of the peace, she filed an affidavit charging wife desertion and a fine of $24 was assessed which was paid.

The present case is still more interesting and promises to bring the defendant into unpleasant notoriety.

The case was continued until next Saturday. Baatz was released on $500 bond which was furnished with William Baatz as surety.

The commissioners will be likely to grant the petition of C. L. Centlivre to run a line to the institute for feeble minded youths.

WASHINGTON.

Two Reports in the Smith-Jackson Contested Election Case--The World's Fair.

WASHINGTON, Jan. 22.—The Smith-Jackson contested election case from the fourth West Virginia district, was discussed by the full committee. Party lines were strictly drawn in the vote and it was announced that two reports would be made to the house, the republicans favoring Mr. Smith and the democrats, Mr. Jackson.

It was evident before the meeting had been long under way that the members had made up their minds on the case and as a consequence there was but little talk. Mr. Dalzell was preparing the majority report favoring the seating of Mr. Smith and Mr. Crisp that of the minority in favor of Mr. Jackson taking his seat.

WASHINGTON, Jan. 22.—The world's fair committee of the house met to day and after a short session, decided to report to the house to-morrow that the committee had come to no conclusion.

In the house to-day a number of bills were introduced and referred. Bill was passed providing that the terms of the circuit and district courts shall begin on the third Monday in May and third Monday in November of each year.

Senate joint resolution appropriating $250,000 for the removal of obstructions from the Missouri river between St. Joseph and its mouth, was reported back with a substitute reducing the appropriation to $75,000 and appropriating $75,000 for the removal of snags from the Columbia river, Oregon. The substitute was agreed to and the joint resolution, as amended, passed.

The house then in committee of the whole, proceeded with the consideration of the Oklahoma town site entry bill.

In the senate to-day Mr. Chandler offered a resolution, which went over under objection, authorizing the immigration committees of the two houses to investigate the working of Federal and state immigration laws and the contracts made by the secretary of the treasury under these laws with state commissions; also a resolution, which went over under objection, calling on the attorney general for the report of United States Marshal Burton concerning the maltreatment of Henry J. Fause, at Aberdeen, Mich. The senate resumed consideration of the bill praying for a census of farm mortgages.

The East Room and the state dining-rooms were profusely and beautifully decorated with potted plants and flowers, as usual on such occasions, while the Marine Band, stationed in the vestibule, enlivened the occasion with appropriate strains of music.

A Bold Robbery.

COLUMBUS, Jan. 22.—Yesterday forenoon a colored man who has been loitering about this city for some time sneaked into the rear door of Mrs. C. W. Smith's millinery establishment on Washington street, and took from a drawer $190 in paper money, making his escape without attracting the attention of Mrs. Smith, who was waiting on customers. The money was not missed for some time, when Mrs. Smith made known her loss to the police. Some time during the early morning hours a colored man was seen leaving the back door. The thief took a north-bound Jeffersonville, Madisonville and Indianapolis train. Officers are after him.

Highway Robbery.

The Matter of Improving Streets is Earnestly Discussed by the Council.

Last night the common council met as a committee of the whole to discuss the matter of improving streets, in accordance with the resolution introduced by Councilman H. A. Read at the last regular meeting. After considerable discussion the resolution was adopted.

It provides that the following streets be paved: Berry street from Calhoun street to College street, Broadway from Berry street to DeWald street, DeWald street from Broadway to Hanna street, Hanna street from DeWald street to Wayne street, Wayne street from Clinton street to Hanna street, Washington street from Broadway to Calhoun street, Washington street from Calhoun street to Shick street, Lewis street from Calhoun street to Hanna street, Wallace street from Hanna street to Lafayette street, Jefferson street from Calhoun street to Broadway, Harrison street from Berry street to Baker street, Baker street from Harrison street to Calhoun street, and Fairfield avenue from Jefferson street to DeWald street.

On motion of Mr. Cody, East Main street, from Barr to Clay, was included in the street improvement plan.

On motion of Mr. Gordon, South Calhoun street, from DeWald street to the city limits, was included.

On motion of Mr. Schmueckle, Clinton street, from Berry street to the Pittsburg and Fort Wayne road, was included.

On motion of Mr. Hilgeman, Brackenridge street was included.

On motion of Mr. Cran, Williams street was included.

Mr. Read gave the cost of some pavements, as follows: Fire brick, from $1.35 to $1.75 a square yard; for asphaltum, $3 a square yard; for cedar block, $1 a yard, for macadam, $1.

It was finally resolved to appoint a committee from the council, to be composed of the members of the wards through which the proposed improvement is to run, to consult with the property owners along the streets and ascertain their views as to the kind of pavement desirable and such other facts as may lead them to a decision, and report the result, as well as their impressions, to the next meeting of the council. This committee will, accordingly, consist of the following members: First ward, W. D. Meyer for Lafayette street; J. C. Kensill for Hanna street; Second ward, Fred Schmueckle; Third ward, H. A. Read; Fourth ward, north side, G. W. Ely; south side, E. Hilgeman; Fifth ward, H. Hilbrecht; Sixth ward, F. W. Bandt; Seventh ward, Peter J. Scheid; Eighth wards, John Smith; Tenth ward, Valentine Ofenloch.

WEDNESDAY, JAN. 22, 1890.

GOVERNOR HOVEY has appointed I. H. C. Royce, of Terre Haute, a trustee of the state normal school to succeed Joseph Gilbert.

CHIEF JUSTICE CORLISS, of North Dakota, refuses to accept railroad passes. He is a youngster, but the people evidently knew what they were about when they put him where he is.

IT is reported that in the past two years certain persons in Mexico have coined about 5,000,000 United States dollars, which have been shipped across the border and circulated in Texas, New Mexico and Arizona, and in other districts, and that the counterfeiters made a profit of twenty eight cents on each of the spurious dollars disposed of.

ONE of the duties of the present legislature in Ohio will be to redistrict the state for congress. At present the delegation stands sixteen republicans and five democrats. The gerrymandering this time will be done by the democrats, and as the Republicans made the last apportionment they should not kick too vigorously against taking a dose of their own medicine.

AT the last meeting of the Kansas State Board of Charities a contract was made with the packing houses of Kansas City, Kas., to supply the various institutions of the state under the control of the board with meat for the current year. This action has been severely criticised by a number of the Kansas newspapers upon the ground that it was the duty of the board to patronize home industries, and to purchase the meat for the state from local butchers.

IT is a law of good society in China that young widows never marry again. Widowhood is therefore held in the highest esteem, and the older the widow grows the more agreeable does her position become with the people. Should she reach fifty years she may, by applying to the emperor, get a sum of money with which to buy a tablet on which is engraved the sum of her virtues. The tablet is placed over the door at the principal entrance to her house.

THE New York Presbytery has begun a series of meetings, which will be held daily, to consider the proposed revision of the confession of faith. The report of the digestion committee provides that the third chapter after the first section be so recast as to include only: The sovereignty of God in election, the general love of God for all kind, the salvation of Christ Jesus provided for all and to be preached by every creature. It was also recommended that the tenth chapter be so revised as not to appear to discriminate concerning "infants dying in infancy."

THE Gazette editor is seeking information on the tariff question. He is startled by the publication of some of the statistics and is evidently slow to admit that it is high tariff, which, under the garb of protection to labor, is robbing unjustly the people of this country of much of their hard earnings. The tariff on many of the prime necessaries of life in the United States is 47.4 per cent., and yet the Gazette can not understand how, when a man purchases these articles, 47.4 per cent. of his money is expended for tariff duties. Don't shut your eyes, neighbor, to facts. Political prejudice can not rob mathematics of their truth. It is a fact that the tariff tax on many of the prime necessities of life in this country is 47 per cent. and it is more than it is in most of the other great nations of the globe. We pay that tax on these necessaries and on the raw materials of manufacturers, while on the luxuries only 20.5 per cent. is paid. Germany pays on necessities 41.5 per cent., France 43.5, and almost all of the great powers are lower in this respect than the United States. We repeat, the Gazette ought to study this tariff question.

SECRETARY WINDOM'S bill, which has at last been made public, is substantially the measure outlined in his annual report. Its principal provisions, briefly stated, are that any one may deposit silver bullion at any United States mint or assay office that the secretary of the treasury may designate, and receive therefor treasury notes to the amount of the market value of such bullion at the time of making the deposit; that these notes shall be redeemable either in silver bullion at its market value at the time of redemption or in gold coin at the option of the government, or in silver dollars at their face value at the option of the holder; that bullion shall not be received at a higher price than $1 for every 371¼ grains of pure silver (the amount of pure silver in a dollar); that the secretary of the treasury, with the approval of the president, may temporarily suspend the receipt of bullion when he is satisfied that speculators have made an "arbitary, nominal or fictitious" price, and that so much of the act of February 28, 1878, as provides for the purchase and coinage of from $2,000,000 to $4,000,000 worth of silver bullion monthly, be repealed.

TARIFF REFORMERS MEET.

The annual convention of the Indiana Tariff Reform league met yesterday, at Indianapolis. The impression was general all over the state that the annual meeting was not to be held until March 4, one year from the date of the organization of the league. The constitution, however, provides the meeting shall be held on the third Tuesday in January of this year.

The call brought to the city, however, thirty five or forty of the most active workers in the cause, among them Wm. D. Hunter, of Lawrenceburg; W. C. Ball, of the Terre Haute Gazette; P. H. McCormack, Columbus; Robert Gregg, Aurora; T. H. Byrnes, Evansville; John S. Campbell, Rockville; John B. B. Latchen, Wabash, and others. It was decided to abandon the Masonic hall meeting, and in its stead an informal conference was held at room 3, Grand hotel. The officers of the league, Edgar A. Brown, president; M. W. Lee, general secretary, and Thomas J. Hudson, corresponding secretary, were all present. Mr. Lee, in addition to his duties as general secretary, has acted as organizer for the league, and has devoted nearly all his time for the last nine months in establishing branch leagues throughout the state.

In a statement before the meeting of what the league is accomplishing, he said that Indiana was now the best organized state in the union, although the work had only been going on nine months. About seventy counties, he said, had been fairly well organized, and it was expected to have every county thoroughly organized by the time the league is a year old. Not a great deal has been done in the way of township organization, but that work, he said, would be pushed. The plan is to establish a branch league in each township in the state, which shall be to the county organization what the latter is to the state organization.

Speaking of the growth of tariff reform sentiment, Mr. Lee said that among the common people, the people who had no political aspirations or selfish motives to gratify, it was growing rapidly. He believed that 70 per cent. of the voters of Indiana were already in favor of tariff reform. "I feel confident," said he, "that we are 100 per cent. stronger in Indiana than we were a year ago." Reports of the work being done all over the state were presented and showed that tariff reform was marching at a quickened pace in every locality.

A proposition to hold a state convention of tariff reformers in Indianapolis on March 4 was discussed, and it was practically agreed that such a meeting should be held. Every league in the state will be asked to send its quota of delegates to this convention.

A WASHINGTON letter to the Chicago Herald says: One hears considerable talk here, too, about the political future of Judge Gresham. Opinions vary all the way from a conclusion that he has no future at all to a frank and bold statement that he will be the nominee in '92. So far as Indiana is concerned it is pretty certain that if called upon to day to decide between Harrison and Gresham the Hoosiers would prefer the latter by a large majority. The professional politicians and Grand Army people are going for Alger, and the office-holders may be languidly for Harrison. If Blaine continues to improve in health and self-confidence as he has improved during the last few months, he could send Harrison and Alger to the bottom of the sea. Some of the western republicans are hoping that a conservative spirit will seize the party in '92 and swing it back toward a republican of the stripe of Judge Gresham.

A RECENT comparison of figures shows that sugar pays the heaviest amount of duty of any single imported article, wool, steel, iron, silk and cotton coming next on the list in the order named. The figures for 1888 stand: $50,647,014 paid in tax, on sugar, and this when the doors of the vault can hardly be crowded together on Uncle Sam's treasure.

"Mr. Barnes of New York" has probably had the greatest circulation of any novel in the last decade, not even excepting "Called Back," and aside from the immense number circulated in America, one English edition bears upon its title page 161st thousandth. As there have been no less than five English editions of the book, which have been translated into German and French, it probably has had a circulation exceeding half a million copies, aside from numbers published in magazines and papers, both in England and Canada, in serial form. The dramatic version of "Mr. Barnes" comes to the Temple to-morrow evening, and all who have read the book will surely see the play.

IS SHE CAST OUT.

A Little Waif Sent From This City to Huntington.

The Huntington Democrat says: "There arrived from Fort Wayne on the 2 25 train on the Wabash this afternoon a little girl, about four or five years old, bearing a note on which was written, "To be taken to the Orphans' home, Huntington, Ind." She came alone except that a gentleman on the train, who saw she was unaccompanied, had taken care of her. She cried violently and between her sobs she gave her name as "Clara Dense." No name is given in the note. She was taken in care by Station Agent Goring, who notified the authorities at Fort Wayne so they can find out who sent her here.

"The gentleman who cared for her on the train informed the reporter that the woman who put her on the train said the child's mother would meet her at the train here and, as that does not compare with the note, it looks like a queer case. He says also that he did not like the looks of the woman.

"The little waif was taken by Mr. A. G. Martin to his home on East Market street, where she will receive the care of tender hands until the mysterious circumstance can be fully explained."

TO BENEFIT THE POOR.

The Entertainment Given at Library Hall Last Night.

Last evening the dramatic reading of Miss Susie Dunovan, attracted a large crowd to Library hall.

The program was interspersed with musical selections by home talent.

The entertainment was given under the auspices of St. Vincent de Paul's society for the benefit of the poor.

The chorus was one of the enjoyable features of the entertainment. The selection, "Come Where the Lillies Bloom," was the first number after the opening selection by Reineke's orchestra. Those who participated were Misses Annie Summers, Lizzie Collins, Emma Ehinger, Tillie Nusbaum, Florence Clark, May Hedekin, Kitty Laughlin, Katie Sullivan, Julia Hedekin, Eva Beaubien; accompanist, Miss Lizzie DeWald.

An instrumental duet, "La Gallina," was then rendered by Misses Annie Summers and May Hedekin.

The instrumental trio, which was to have been rendered by Misses Annie Summers, May Hedekin and Carrie Trentman, was not given, on account of the illness of Miss Trentman.

"Rizpah," by Mrs. L. M. Blinn, was unusually interesting throughout.

The final chorus, "The Mermaid's Evening Song," was rendered by Misses Annie Summers, Florence Clark, Kitty Sullivan, Emma Ehinger and May Hedekin.

The readings by Miss Dunovan were all interesting. Their delivery showed refinement and ability.

SUPPRESSING GAMBLING.

The Mayor Expresses a Determination to Run Out Gamblers.

Mayor Harding has given special instructions to Chief Wilkinson to suppress gambling.

"Gambling must be stopped in this city," said the mayor this morning, "and it must be stopped soon, too."

There are in this city a number of gambling rooms in full blast every night, or the professionals who make their money in this way would not be loitering here.

The mayor thinks he has effected an observance of the saloon law and he will now turn his attention to the gamblers.

Last winter Mr. H. E. Kinkade, collector for the United States Express company, at Des Moines, Iowa, was severely troubled with chilblains. He says he only applied it three times until his feet were entirely well and free from itching and swelling. For sale by Geo. H. Loesch.

PAYING FOR HER WRINGER.

You have heard about all sorts of unique ways of keeping scores for which barkeepers are hung up, and I suppose you have heard all the stories that are afloat, but I think an old woman who lives up our way and does washing for my family has invented something new.

She is a very old woman—used to be a slave—and is as ignorant as an unshucked ear of corn. She can't read figures or anything. A short time ago she bought a wringer on the installment plan, and inasmuch as she is very suspicious of everybody, and is inclined to think everybody is trying to rob her, it puzzled her a great deal to devise some way of keeping count of the money paid at different times on her purchases. But she struck it. I was over at her house the other morning to see her about some extra work my wife wanted done, and noticed on the window-sill several lead pencil circles of different sizes, but each drawn very carefully, as though around some circular substance. I asked auntie about it, and she told me of the wringer, and that that was the way she knew how much she had paid. The small rings were the size of a quarter, and meant that so many quarters had been paid, and the large ones meant half dollars and dollars. She just counted up the rings when she wanted to know how much she had paid on her wringer, and could tell as readily as though the money were before her. And yet they say figures are a necessity.

Body covered with scales. Itching terrible. Suffering endless. No relief. Doctors and medicines fail. Speedily cured by Cuticura at a cost of $5.

Cured by Cuticura.

If I had known of the Cuticura Remedies twenty-eight years ago it would have saved me $300 00 (two hundred dollars) and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body and got under my nails The scales would drop off of me all the time, and my suffering was endless and without relief One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I took ..... and ..... Sarsaparillas over one year and a half, but no cure. I went to two or three doctors, and no cure I cannot praise the Cuticura Remedies too much. They have made my skin as clear and free from scales as a baby's. All I used of them were three boxes of Cuticura, and three bottles of Cuticura Resolvent, and two cakes of Cuticura Soap. If you had been here and said you would have cured me for $300 00 you would have had the money. I looked like the picture in your book of psoriasis (picture number two, "How to Cure Skin Diseases), but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

RESTORED HER HEALTH.

For 25 years I suffered from boils, erysipelas and other blood affections, taking during that time great quantities of different medicines without giving me any perceptible relief. Friends induced me to try S. S. S. It improved me from the start, and after taking several bottles, restored my health as far as I could hope for at my age, which is now seventy-five years.

OUR RAILWAYS.

The Rank of States for Number of Miles of Track--The Day's Local Budget.

After carefully revising its figures the Railway Age says it appears that a little more than 5,200 miles of track were laid last year. The aggregate mileage of the country according to the Age is 161,270, or nearly enough to encircle the planet at the equator six and a half times.

Illinois stands at the head of the state of the union with respect to railroad mileage. It has 10,079 miles. Kansas comes next with 8,815, Texas next with 8,494, Iowa next with 8,455, and Pennsylvania fifth with 8,417. Kansas is largely indebted for its second position to its great extent from east to west, and the fact that it is traversed by Pacific roads.

Illinois ranks in 1890 as it did in 1870, twenty years ago, though its mileage has more than doubled, But Kansas has leaped from the teath to the second position and Texas from the twenty-sixth to the third. Iowa has advanced one notch, from fifth to fourth. But Pennsylvania has gone back from second to fifth, New York from third to sixth, and Ohio from fourth to seventh. Michigan was the eighth in 1870 as it is 1890, but Indiana has dropped from third to ninth. As a rule and naturally the greatest growth has been in the west and southwest, though there has been great increase of mileage in all parts of the country.

ALWAYS BUY YOUR TICKETS.

In the case of Reese against the Pennsylvania Railroad company, appealed from the common pleas court of Pittsburg, Judge Mitchell, in the supreme court of Pennsylvania, Monday, read the decision of the court upholding the railroad company. Plaintiff boarded a local train, near Pittsburg, without a ticket. The conductor, in accepting cash payment of the fare, made the customary extra charge of ten cents, returning to the passenger a coupon good for that amount at the company's ticket office.

Reese paid the extra ten cents under protest, claiming that it made the fare more than the three and a half cents per mile allowed by the terms of the company's charter. He then brought suit to test the legality of the extra charge. The case was decided in his favor in Pittsburg, and the railroad company took an appeal to the supreme court, which reversed the judgment of the common pleas court.

The opinion read by Judge Mitchell says the company offered plenty of facilities to passengers for the purchase of tickets before getting on the trains, and were, therefore, justified in making the extra charge, especially since it gave a coupon providing for the refunding of such extra charge.

NARROW ESCAPE.

Two or three mornings ago there came near being a serious railroad accident on the Pennsylvania road, near Monroeville. The east bound mail train due at 6:22 a. m., side-tracked at Monroeville for the limited passenger, which goes west early in the morning.

The siding was so filled with freight cars that the Pullman sleeper attached to the mail could not leave the main track. It is claimed by the train men of the mail that the limited, which does not stop at Monroeville, was flagged. This is denied by the limited train men, who claim that the first intimation they had of anything being wrong was when they saw the sleeper on the track ahead of them. The engineer reversed his engine, and he and his fireman jumped from the train, believing that a collision was inevitable.

Luckily for life and property the limited come to a standstill before the sleeper, with its load of unsuspecting human freight, was reached, and life and property was saved. It is understood than an investigation is being made by the officials of the road in order to determine who was to blame.

Geo. M. Moyers, of the Bass works, is ill with the prevailing complaint—la grippe.

William Cherry, Thomas Histon and J. C. Kensill, of the Pittsburg boiler shops, are off duty on account of la grippe.

General passenger agents report that there has been an increase in earnings from through business the last sixty days, compared with a year ago, while earnings from local traffic with most lines are showing a falling off.

A. L. Rogers, of the Bass works, will leave in a few days to accept a position with the Houston electric light works at Lynn, Mass.

The machinists of the Bass works will give a ball at Arion hall on the evening of Februrry 15. The boys will have a pleasant time and the best dance of the season.

The bill to lease the Chesapeake and Ohio canal has passed the house and senate of Maryland, and it is said that the Pennsylvania railroad company will be the lessee.

The work which the Indiana Car-service association is doing has enabled several of the roads to rake off one or two switching engines and crews, saving $25 to $50 a day to such roads.

Wabash Plain Dealer: "Willie Marquis, the youthful train wrecker, will plead guilty in the circuit court next week and throw himself on the mercy of the court. The railroad officials are willing the minimum penalty should be inflicted and Marquis will probably escape with two or three years in the penitentiary."

The Pennsylvania Company Voluntary Relief association of the lines west of Pittsburg has had a great boom lately. About 12,000 employes are now members of it, the increase during December being 5,600. The death benefits range from $250 to $2,500, and sick benefits are also paid, the amount of which is based upon the amount of insurance which the beneficiary holds.

To-day Ed Mundt, the assistant electrician at the Pittsburg shops, was married to Miss Mary Wittie, an accomplished young lady of New Haven. After the marriage they left for an extended tour of the west, taking in Chicago, St. Louis and other points. Yesterday the employes of the Pittsburg, Fort Wayne and Chicago shops, presented to Mr. Mundt, a beautiful and costly chair as a token of respect.

The secretary of division No. 145 of the Brotherhood of Locomotive Engineers is short in his accounts $3,000. This division is composed of engineers on the eastern division of the New York Cetral road, and is one of the wealthiest divisions in the Brotherhood organization. The money used had been contributed for life insurance. One of the officials of the Brotherhood states that this is the first time in the history of the organization that the secretary and treasurer have been short and dismissed from the order.

When the time comes for the Pennsylvania company to build double tracks the whole distance it will only need to fill in a few miles between side tracks. The Lima Gazette says: "About seventy-five Italian laborers arrived at 4 o'clock last evening from Pittsburg. They are to be employed on the grade of the new track which is to be put down between Lima and Elida, on the Pittsburg, Fort Wayne and Chicago road. They arrived bag and baggage and will camp along the route. Work will be commenced on this end of the grade and be extended to Elida. When completed this new track will furnish an outlet to the continual freight blockade on that road." A force of men are working near this city.

Ringing Noises

In the ears, sometimes a roaring buzzing sound are caused by catarrh, that exceedingly disagreeable and very common disease. Loss of smell or hearing also result from catarrh. Hood's Sarsaparilla, the great blood purifier, is a peculiarly successful remedy for this disease, which it cures by purifying the blood. If you suffer from catarrh, try Hood's Sarsaparilla, the peculiar medicine.

The True Elixir Of Life Hood's Sarsaparilla

Hood's Sarsaparilla purifies the blood, builds up weak and debilitated systems, gives strength to weakened nerves, overcomes that tired feeling, tones the digestive organs, invigorates and regulates the kidneys and liver, expels disease and gives vigorous health. Young people say: "It is the best medicine we ever took." Old people say: "It makes us feel young again."

THE papers report an uncommon number of cases of men who become suddenly insane and attack their wives and children with murderous intent. The omission of an unmistakable sign of homicidal mania, whereby the victim might be secured before disaster occurs, seems to be an oversight of Providence. Come to think of it, though, the sign may be there in each case, if the unscientific mind could but read it.

REPRESENTATIVE WILLIAM MARTIN, of Texas, who had a good deal of fun poked at him during the last session of Congress, is the heaviest smoker in official life at Washington. He is always smoking cigars. He is not particular as to the brand, quality, style, or price. All he requires of a cigar is that it draw well.

IN Russia women are not allowed to practice medicine before reaching the age of forty years. In free America every woman feels herself fully qualified to practice medicine as soon as she owns a baby or can borrow one of her neighbor to experiment on.—*Terre Haute Express.*

Nature in Convulsion

Is terrific. Violent eruptions, cyclones, earthquakes are awfully and tremendously picturesque, but scarcely less dreadful to contemplate in action and effect by the administration of remedies which produce convuls on and agony in the abnormal portions of the human frame. Such is the effect of the old fashioned violent purgative, happily falling more and more into disuse, and of which Hostetter's Stomach Bitters is the wholesome, pleasant and far more effective succedaneum. They weakened the intestines—the Bitters invigorates them. They left the bowels inactive, because incapacitated by ensuing feebleness. The Bitters, on the contrary, and because it enables, not forces, them to act—a vast and fortunate difference—perpetuates their activity and regularity. The liver is beneficially stimulated, as the kidneys also are, by this medicine, which easily conquers, also, malaria, nervousness and rheumatism.

Idaho is said to have a Mormon population of 20,000.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. FRUIT HOUSE PRICES FOR 1890.

This year opens favorable for the people, so far as the Sugar Market is concerned. Last season the great sugar trust had their grip on the market and made it ruinous to the purchaser—so much so that Sugars were advanced in 60 days at least 50 per cent. This is now over—the Sugar Trust is broken and Sugars have declined to a point lower than they ever were—the last reduction is 1 cent per lb.

The high price of Coffee has induced a great many to try Tea—and when it is considered that a pound of Tea can be had for the price of a pound of Coffee and that it will go twice as far, it is not to be wondered at that there is a great increase in our Tea Trade. The truth is we sell double the quantity we used to a few years ago. Our motto is selling large quantities at a small profit, for we purchase direct of the Importers and then in selling direct to our customers we save three profits—the speculator, jobber and the wholesale dealer. AN EXPLOSION OF GAS!

From a Lighted Candle Demolishes a Dwelling House. Kills One Person and Fatally Injures Others.

PITTSBURG, Pa., Jan. 22.—At 9 o'clock this morning an explosion of sewer gas in the cellar of a small frame tenement house on Ask alley near Penn avenue, totally demolished the house and killed one person fatally injuring more or less eight others.

Mrs. Theodore Ringer, who, with her family of five, occupied the second floor, went into the cellar with a lighted candle in her hand. On entering the cellar a terrific explosion occurred, lifting the house from its foundation. The building collapsed and fell back in the cellar, burying the eleven occupants in the debris, which immediately took fire.

An alarm was turned in and the police and fire department were quickly at work. The first recovered was that of John Slep, who with his wife and daughter, occupied the first floor. Slep died en route to the hospital.

His wife is terribly burned and bruised and cannot recover. The daughter is also seriously injured. Mrs. Ringer was also badly burned and cut and probably fatally injured. Mr. and Mrs. Paul Welcher, grand-parents of Mrs. Ringer, occupied the attic floor, and are also badly hurt. Mrs. Ringer's family of five children were painfully injured, but will recover. The house was owned by the Hogan heirs.

TRAGEDY IN TEXAS.

A Nephew of the Late Judge Terry Shot and Killed.

GALVESTON, Texas, Jan. 22.—A terrible tragedy was enacted in the court house here yesterday, in which Kyle Terry, nephew to the late Judge Terry, was instantly killed and two men badly wounded. The killing was the outcome of the Fort Bend trouble, which resulted some time ago in a battle between the citizens of Richmond.

A large special venire of citizens had been summoned for jury service in these cases to appear at the court house at 10 o'clock. A few minutes after that hour Kyle Terry and his brother, Captain David Terry, of California; Judge Parker, Judge Weston, Dr. Gale, and some others entered the front door of the court house. Terry had just reached the second step when the first shot was fired. It struck him under the right arm and came out of the left breast, and literally tore his heart to pieces.

There was a lull and then four or five shots were fired from different directions. One passed through the arm of Judge Weston, of Fort Bend county, and other through the leg of Henry Pitte, a Galveston citizen.

Eye witnesses say three men were shooting, naming them as Val Gibson, who killed Terry and whose brother Terry had killed at Wharton; Dan Ragsdal and young Mitchell, all from Fort Bend county, and all jay birds.

Immediately after the shooting six arrests were made. The principal was Val Gibson, who fired the first and only fatal shot. He is a young man about twenty-five years old and takes the matter coolly.

CAMBRIDGE, Mass., Jan. 22.—Francis Bowen, one of the oldest professors of Harvard college, died at his home in this city yesterday morning. He had been failing gradually during the past few years, and a month ago resigned his position as an active worker in the college. No fears for his health were entertained, however, and his death was a serious shock to his friends.

He rose late yesterday morning and entered the bath room. After he had been there some minutes his family became alarmed and on forcing open the door found him dead in the tub. Dr. Morrill Wyman, one of his classmates, was summoned and pronounced death to be the result of a shock from entering the water and a consequent failure of the heart. Professor Brown was seventy-eight years of age.

The Sultan has agreed to a reduction ranging from fifteen to twenty per cent. in the salaries of state officials and also to reduction of 100,000 pounds yearly in the expense of the imperial household. It is believed that there will be a deficit of 400,000 pounds. The Sultan desires a statement.

STOLE HIS HOGS.

Farmer Young Loses Two Nice Porkers.

There are some thieves who are willing to steal almost anything they can get their hands on, but Farmer Young, living east of the city, can bear testimony to the fact that there are thieves who will steal things they do not have to by their hands on for the purpose of committing the felonious act.

A night or two ago, when all the occupants of his farm house were wrapped in the arms of sleep, some person or persons entered on his premises, and, approaching the pen where his hogs were enjoying a midnight snooze, unmindful of robber raids, deliberately and with felonious intent, took two of his fattest porkers and drove them away.

This is the last Farmer Young has heard of his two stolen hogs and he is of the opinion that long ere this they are butchered and furnishing some families meat for their tables.

He has no clue to the thieves.

HE IS A "LULU."

Theodore Baatz, the Defendant in Paternity Proceedings.

Theodore Baatz, who lives on Bass street, was arrested and arraigned before 'Squire Hays last evening at the instigation of Emma L. Meese, who alleges that the defendant is the father of her babe. Miss Meese is a domestic in the household of Farmer Dave Robinson.

Baatz is married, hence some sensational features.

On the second of last September he was arrested on a charge of bastardy and brought into France's court upon the affidavit of a Miss Riedorf. The case was adjusted by Baatz marrying the girl. On December 14, before the same justice of the peace, she filed an affidavit charging wife desertion and a fine of $24 was assessed which was paid.

The present case is still more interesting and promises to bring the defendant into unpleasant notoriety.

The case was continued until next Saturday. Baatz was released on $500 bond which was furnished with William Baatz as surety.

PETITIONS GRANTED.

The County Commissioners Grant Street Railway Franchises To-day.

The county commissioners to-day granted a franchise to the Land and Improvement company to operate a street car line conditionally that the power for street cars be either horse or motor and not electricity unless the wires be placed underground. It is likely the company will build an electric railway.

A franchise was also granted to W. T. Abbott and others for a street railway in the southeastern part of the city, with the same conditions.

The commissioners will be likely to grant the petition of C. L. Conliver to run a line to the institute for feeble minded youths.

WASHINGTON.

Two Reports in the Smith-Jackson Contested Election Case--The World's Fair.

WASHINGTON, Jan. 22.—The Smith-Jackson contested election case from the fourth West Virginia district, was discussed by the full committee. Party lines were strictly drawn in the vote and it was announced that two reports would be made to the house, the republicans favoring Mr. Smith and the democrats, Mr. Jackson.

It was evident before the meeting had been long under way that the members had made up their minds on the case and as a consequence there was but little talk. Mr. Dalzell was preparing the majority report favoring the seating of Mr. Smith and Mr. Crisp that of the minority in favor of Mr. Jackson filling his seat.

WASHINGTON, Jan. 22.—The world's fair committee of the house met to-day and after a short session, decided to report to the house to-morrow that the committee had come to no conclusion.

In the house to-day a number of bills were introduced and referred. Bill was passed providing that the terms of the circuit and district courts shall begin on the third Monday in May and third Monday in November of each year.

Senate joint resolution appropriating $250,000 for the removal of obstructions from the Missouri river between St. Joseph and its mouth, was reported back with a substitute reducing the appropriation to $75,000 and appropriating $75,000 for the removal of snags from the Columbia river, Oregon. The substitute was agreed to and the joint resolution, as amended, passed.

The house then in committee of the whole, proceeded with the consideration of the Oklahoma town-site entry bill.

In the senate to-day Mr. Chandler offered a resolution, which went over under objection, authorizing the immigration committees of the two houses to investigate the working of Federal and state immigration laws and the contracts made by the secretary of the treasury under these laws with state commissions; also a resolution, which went over under objection, calling on the attorney general for the report of United States Marshal Burton concerning the maltreatment of Henry J. Fause, at Aberdeen, Mich. The senate resumed consideration of the bill praying for a census of farm mortgages.

A STATE DINNER.

President and Mrs. Harrison Entertain the Diplomatic Corps.

Besides the president and Mrs. Harrison, all the ministers and charges d' affaires from different countries making up the diplomatic corps, some of them accompanied by their wives, Assistant Secretary Wharton, representing the state department; Hon. R. R. Hitt, Hon. L. T. Michner, of Indiana, and Mrs. Allen were present.

The East Room and the state dining-rooms were profusely and beautifully decorated with potted plants and flowers, as usual on such occasions, while the Marine Band, stationed in the vestibule, enlivened the occasion with appropriate strains of music.

A Bold Robbery.

COLUMBUS, Jan. 22.—Yesterday forenoon a colored man who has been loitering about this city for some time sneaked into the rear door of Mrs. C. W. Smith's millinery establishment on Washington street, and took from a drawer $100 in paper money, making his escape without attracting the attention of Mrs. Smith, who was waiting on customers. The money was not missed for some time, when Mrs. Smith made known her loss to the police. Some time during the early morning hours a colored man was seen leaving the back door. The thief took a north-bound Jeffersonville, Madisonville and Indianapolis train. Officers are after him.

Highway Robbery.

BLOOMINGTON, Ill., Jan. 22.—Frank McCracken and Matt James, sons of wealthy farmers of Pleasant Hill, were arrested this morning, charged with highway robbery. It is said they "held up" and robbed a peddler of $100 and a gold watch.

WEDNESDAY, JAN. 22, 1890.

GOVERNOR HOVEY has appointed I. H. C. Royce, of Terre Haute, a trustee of the state normal school to succeed Joseph Gilbert.

CHIEF JUSTICE CORLISS, of North Dakota, refuses to accept railroad passes. He is a youngster, but the people evidently knew what they were about when they put him where he is.

IT is reported that in the past two years certain persons in Mexico have coined about 5,000,000 United States dollars, which have been shipped across the border and circulated in Texas, New Mexico and Arizona, and in other districts, and that the counterfeiters made a profit of twenty-eight cents on each of the spurious dollars disposed of.

ONE of the duties of the present legislature in Ohio will be to redistrict the state for congress. At present the delegation stands sixteen republicans and five democrats. The gerrymandering this time will be done by the democrats, and as the Republicans made the last apportionment they should not kick too vigorously against taking a dose of their own medicine.

At the last meeting of the Kansas State Board of Charities a contract was made with the packing houses of Kansas City, Kas., to supply the various institutions of the state under the control of the board with meat for the current year. This action has been severely criticised by a number of the Kansas newspapers upon the ground that it was the duty of the board to patronize home industries, and to purchase the meat for the state from local butchers.

IT is a law of good society in China that young widows never marry again. Widowhood is therefore held in the highest esteem, and the older the widow grows the more agreeable does her position become with the people. Should she reach fifty years she may, by applying to the emperor, get a sum of money with which to buy a tablet on which is engraved the sum of her virtues. The tablet is placed over the door at the principal entrance to her house.

THE New York Presbytery has begun a series of meetings, which will be held daily, to consider the proposed revision of the confession of faith. The report of the digestion committee provides that the third chapter after the first section be so recast as to include only: The sovereignty of God in election, the general love of God for all kind, the salvation of Christ Jesus provided for all and to be preached by every creature. It was also recommended that the tenth chapter be so revised as not to appear to discriminate concerning "infants dying in infancy."

THE Gazette editor is seeking information on the tariff question. He is startled by the publication of some of the statistics and is evidently slow to admit that it is high tariff, which, under the garb of protection to labor, is robbing unjustly the people of this country of much of their hard earnings. The tariff on many of the prime necessaries of life in the United States is 47.4 per cent., and yet the Gazette can not understand how, when a man purchases these articles, 47.4 per cent of his money is expended for tariff duties. Don't shut your eyes, neighbor, to facts. Political prejudice can not rob mathematics of their truth. It is a fact that the tariff tax on many of the prime necessities of life in this country is 47 per cent. and it is more than it is in most of the other great nations of the globe. We pay that tax on these necessaries and on the raw materials of manufacturers, while on the luxuries only 20.5 per cent. is paid. Germany pays on necessities 41.5 per cent., France 43.5, and almost all of the great powers are lower in this respect than the United States. We repeat, the Gazette ought to study this tariff question.

SECRETARY WINDOM'S bill, which has at last been made public, is substantially the measure outlined in his annual report. Its principal provisions, briefly stated, are that any one may deposit silver bullion at any United States mint or assay office that the secretary of the treasury may designate, and receive therefor treasury notes to the amount of the market value of such bullion at the time of making the deposit; that these notes shall be redeemable either in silver bullion at its market value at the time of redemption or in gold coin at the option of the government, or in silver dollars at their face value at the option of the holder; that bullion shall not be received at a higher price than $1 for every 371¼ grains of pure silver (the amount of pure silver in a dollar); that the secretary of the treasury, with the approval of the president, may temporarily suspend the receipt of bullion when he is satisfied that speculators have made an "arbitary, nominal or fictitious" price, and that so much of the act of February 28, 1878, as provides for the purchase and coinage of from $2,000,000 to $4,000,000 worth of silver bullion monthly, be repealed.

TARIFF REFORMERS MEET.

The annual convention of the Indiana Tariff Reform league met yesterday, at Indianapolis. The impression was general all over the state that the annual meeting was not to be held until March 4, one year from the date of the organization of the league. The constitution, however, provides the meeting shall be held on the third Tuesday in January of this year.

The call brought to the city, however, thirty-five or forty of the most active workers in the cause, among them Wm. D. Hunter, of Lawrenceburg; W. C. Ball, of the Terre Haute Gazette; P. H. McCormack, Columbus; Robert Gregg, Aurora; T. H. Byrnes, Evansville; John S. Campbell, Rockville; John B. B. Latchen, Wabash, and others. It was decided to abandon the Masonic hall meeting, and in its stead an informal conference was held at room 3, Grand hotel. The officers of the league, Edgar A. Brown, president; M. W. Lee, general secretary, and Thomas J. Hudson, corresponding secretary, were all present. Mr. Lee, in addition to his duties as general secretary, has acted as organizer for the league, and has devoted nearly all his time for the last nine months in establishing branch leagues throughout the state.

In a statement before the meeting of what the league is accomplishing, he said that Indiana was now the best organized state in the union, although the work had only been going on nine months. About seventy counties, he said, had been fairly well organized, and it was expected to have every county thoroughly organized by the time the league is a year old. Not a great deal has been done in the way of township organization, but that work, he said, would be pushed. The plan is to establish a branch league in each township in the state, which shall be to the county organization what the latter is to the state organization.

Speaking of the growth of tariff reform sentiment, Mr. Lee said that among the common people, the people who had no political aspirations or selfish motives to gratify, it was growing rapidly. He believed that 70 per cent. of the voters of Indiana were already in favor of tariff reform. "I feel confident," said he, "that we are 100 per cent. stronger in Indiana than we were a year ago." Reports of the work being done all over the state were presented and showed that tariff reform was marching at a quickened pace in every locality.

A proposition to hold a state convention of tariff reformers in Indianapolis on March 4 was discussed, and it was practically agreed that such a meeting should be held. Every league in the state will be asked to send its quota of delegates to this convention.

A WASHINGTON letter to the Chicago Herald says: One hears considerable talk here, too, about the political future of Judge Gresham. Opinions vary all the way from a conclusion that he has no future at all to a frank and bold statement that he will be the nominee in '92. So far as Indiana is concerned it is pretty certain that if called upon to-day to decide between Harrison and Gresham the Hoosiers would prefer the latter by a large majority. The professional politicians and Grand Army people are going for Alger, and the office-holders may be languidly for Harrison. If Blaine continues to improve in health and self-confidence as he has improved during the last few months, he could send Harrison and Alger to the bottom of the sea. Some of the western republicans are hoping that a conservative spirit will seize the party in '92 and swing it back toward a republican of the stripe of Judge Gresham.

A RECENT comparison of figures shows that sugar pays the heaviest amount of duty of any single imported article, wool, steel, iron, silk and cotton coming next on the list in the order named. The figures for 1888 stand: $50,647,014 paid in tax, on sugar, and this when the doors of the vault can hardly be crowded together on Uncle Sam's treasure.

"Mr. Barnes of New York" has probably had the greatest circulation of any novel in the last decade, not even excepting "Called Back," and aside from the immense number circulated in America, one English edition bears upon its title page 161st thousandth. As there have been no less than five English editions of the book, which have been translated into German and French, it probably has had a circulation exceeding half a million copies, aside from numbers published in magazines and papers, both in England and Canada, in serial form. The dramatic version of "Mr. Barnes" comes to the Temple to-morrow evening, and all who have read the book will surely see the play.

IS SHE CAST OUT.

A Little Waif Sent From This City to Huntington.

The Huntington Democrat says: "There arrived from Fort Wayne on the 2:25 train on the Wabash this afternoon a little girl, about four or five years old, bearing a note on which was written, "To be taken to the Orphans' home, Huntington, Ind." She came alone except that a gentleman on the train, who saw she was unaccompanied, had taken care of her. She cried violently and between her sobs she gave her name as "Clara Dense." No name is given in the note. She was taken in care by Station Agent Goring, who notified the authorities at Fort Wayne so they can find out who sent her here.

"The gentleman who cared for her on the train informed the reporter that the woman who put her on the train said the child's mother would meet her at the train here and, as that does not compare with the note, it looks like a queer case. He says also that he did not like the looks of the woman.

"The little waif was taken by Mr. A. G. Martin to his home on East Market street, where she will receive the care of tender hands until the mysterious circumstance can be fully explained."

TO BENEFIT THE POOR.

The Entertainment Given at Library Hall Last Night.

Last evening the dramatic reading of Miss Susie Donovan, attracted a large crowd to Library hall.

The program was interspersed with musical selections by home talent.

The entertainment was given under the auspices of St. Vincent de Paul's society for the benefit of the poor.

The chorus was one of the enjoyable features of the entertainment. The selection, "Come Where the Lillies Bloom," was the first number after the opening selection by Reineke's orchestra. Those who participated were Misses Annie Summers, Lizzie Collins, Emma Ehinger, Tillie Nusbaum, Florence Clark, May Hedekin, Kitty Laughlin, Katie Sullivan, Julia Hedekin, Eva Reuhlein; accompanist, Miss Lizzie DeWald.

An instrumental duet, "La Gallina," was then rendered by Misses Annie Summers and May Hedekin.

The instrumental trio, which was to have been rendered by Misses Annie Summers, May Hedekin and Carrie Trentman, was not given, on account of the illness of Miss Trentman.

"Rizpah," by Mrs. L. M. Blinn, was unusually interesting throughout.

The final chorus, "The Mermaid's Evening Song," was rendered by Misses Annie Summers, Florence Clark, Kitty Sullivan, Emma Ehinger and May Hedekin.

The readings by Miss Donovan were all interesting. Their delivery showed refinement and ability.

SUPPRESSING GAMBLING.

The Mayor Expresses a Determination to Run Out Gamblers.

Mayor Harding has given special instructions to Chief Wilkinson, to suppress gambling.

"Gambling must be stopped in this city," said the mayor this morning, "and it must be stopped soon, too."

There are in this city a number of gambling rooms in full blast every night, or the professionals who make their money in this way would not be loitering here.

The mayor thinks he has effected an observance of the saloon law and he will now turn his attention to the gamblers.

PAYING FOR HER WRINGER.

You have heard about all sorts of unique ways of keeping scores for which barkeepers are hung up, and I suppose you have heard all the stories that are afloat, but I think an old woman who lives up our way and does washing for my family has invented something new.

She is a very old woman—used to be a slave—and is as ignorant as an unshucked ear of corn. She can't read figures or anything. A short time ago she bought a wringer on the installment plan, and inasmuch as she is very suspicious of everybody, and is inclined to think everybody is trying to rob her, it puzzled her a great deal to devise some way of keeping count of the money paid at different times on her purchases. But she struck it. I was over at her house the other morning to see her about some extra work my wife wanted done, and noticed on the window-sill several lead pencil circles of different sizes, but each drawn very carefully, as though around some circular substance. I asked auntie about it, and she told me of the wringer, and that that was the way she knew how much she had paid. The small rings were the size of a quarter, and meant that so many quarters had been paid, and the large ones meant half dollars and dollars. She just counted up the rings when she wanted to know how much she had paid on her wringer, and could tell as readily as though the money were before her. And yet they say figures are a necessity.

Scratched 28 Years.
Body covered with scales. Itching terrible. Suffering endless. No relief. Doctors and medicines fail. Speedily cured by Cuticura at a cost of $5.
Cured by Cuticura.
If I had known of the Cuticura Remedies twenty-eight years ago it would have saved me $200 (two hundred dollars) and an immense amount of suffering, by disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body and I tender my limbs. The scales would drop off of me all the time, and my suffering was endless and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I took ..... and ..... Sarsaparillas over one year and a half, but no cure. I went to two or three doctors, but no cure. I cannot praise the Cuticura Remedies too much. They have made my skin as clear and free from scales as a baby's. All I used of them were three boxes of Cuticura, and three bottles of Cuticura Resolvent, and two cakes of Cuticura Soap. If you had been here and said you would have cured me for $200.00, you would have had the money. I looked like the picture in your book of psoriasis (pictured number two, "How to Cure Skin Diseases), but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of a second nature to me. I thank you a thousand times.

RESTORED HER HEALTH.

For 25 years I suffered from boils, erysipelas and other blood affections, taking during that time great quantities of different medicines without giving me any perceptible relief. Friends induced me to try S. S. S. It improved me from the start, and after taking several bottles, restored my health as far as I could hope for at my age, which is now seventy five years.

OUR RAILWAYS.

The Rank of States for Number of Miles of Track--The Day's Local Budget.

After carefully revising its figures the Railway Age says it appears that a little more than 5,200 miles of track were laid last year. The aggregate mileage of the country according to the Age is 161,270, or nearly enough to encircle the planet at the equator six and a half times.

Illinois stands at the head of the state of the union with respect to railroad mileage. It has 10,079 miles, Kansas comes next with 8,816, Texas next with 8,494, Iowa next with 8,455, and Pennsylvania fifth with 8,417. Kansas is largely indebted for its second position to its great extent from east to west, and the fact that it is traversed by Pacific roads.

Illinois ranks in 1890 as it did in 1870, twenty years ago, though its mileage has more than doubled, But Kansas has leaped from the tenth to the second position and Texas from the twenty-sixth to the third. Iowa has advanced one notch, from fifth to fourth. But Pennsylvania has gone back from second to fifth, New York from third to sixth, and Ohio from fourth to seventh. Michigan was the eighth in 1870 as it is 1890, but Indiana has dropped from third to ninth. As a rule and naturally the greatest growth has been in the west and southwest, though there has been great increase of mileage in all parts of the country.

ALWAYS BUY YOUR TICKETS.

In the case of Reese against the Pennsylvania Railroad company, appealed from the common pleas court of Pittsburg, Judge Mitchell, in the supreme court of Pennsylvania, Monday, read the decision of the court upholding the railroad company. Plaintiff boarded a local train, near Pittsburg, without a ticket. The conductor, in accepting cash payment of the fare, made the customary extra charge of ten cents, returning to the passenger a coupon good for that amount at the company's ticket office.

Reese paid the extra ten cents under protest, claiming that it made the fare more than the three and a half cents per mile allowed by the terms of the company's charter. He then brought suit to test the legality of the extra charge. The case was decided in his favor in Pittsburg, and the railroad company took an appeal to the supreme court, which reversed the judgment of the common pleas court.

The opinion read by Judge Mitchell says the company offered plenty of facilities to passengers for the purchase of tickets before getting on the trains, and were, therefore, justified in making the extra charge, especially since it gave a coupon providing for the refunding of such extra charge.

NARROW ESCAPE.

Two or three mornings ago there came near being a serious railroad accident on the Pennsylvania road, near Monroeville. The east bound mail train due at 6.22 a. m., side-tracked at Monroeville for the limited passenger, which goes west early in the morning.

The siding was so filled with freight cars that the Pullman sleeper attached to the mail could not leave the main track. It is claimed by the train men of the mail that the limited, which does not stop at Monroeville, was flagged. This is denied by the limited train men, who claim that the first intimation they had of anything being wrong was when they saw the sleeper on the track ahead of them. The engineer reversed his engine, and he and his firemen jumped from the train, believing that a collision was inevitable.

Luckily for life and property the limited come to a standstill before the sleeper, with its load of unsuspecting human freight, was reached, and life and property was saved. It is understood than an investigation is being made by the officials of the road in order to determine who was to blame.

The bill to lease the Chesapeake and Ohio canal has passed the house and senate of Maryland, and it is said that the Pennsylvania railroad company will be the lessee.

The work which the Indiana Car-service association is doing has enabled several of the roads to take off one or two switching engines and crews, saving $25 to $50 a day to such roads.

Wabash Plain Dealer: "Willie Marquis, the youthful train wrecker, will plead guilty in the circuit court next week and throw himself on the mercy of the court. The railroad officials are willing the minimum penalty should be inflicted and Marquis will probably escape with two or three years in the penitentiary."

The Pennsylvania Company Voluntary Relief association of the lines west of Pittsburg has had a great boom lately. About 12,000 employes are now members of it, the increase during December being 5,000. The death benefits range from $250 to $2,500, and sick benefits are also paid, the amount of which is based upon the amount of insurance which the beneficiary holds.

To-day Ed Mundt, the assistant electrician at the Pittsburg shops, was married to Miss Mary Wittie, an accomplished young lady of New Haven. After the marriage they left for an extended tour of the west, taking in Chicago, St. Louis and other points. Yesterday the employes of the Pittsburg, Fort Wayne and Chicago shops, presented to Mr. Mundt, a beautiful and costly chair as a token of respect.

The secretary of division No. 145 of the Brotherhood of Locomotive Engineers is short in his accounts $3,000 This division is composed of engineers on the eastern division of the New York Central road, and is one of the wealthiest divisions in the Brotherhood organization. The money used had been contributed for life insurance. One of the officials of the Brotherhood states that this is the first time in the history of the organization that the secretary and treasurer have been short and dismissed from the order.

When the time comes for the Pennsylvania company to build double tracks the whole distance it will only need to fill in a few miles between side tracks. The Lima Gazette says: "About seventy five Italian laborers arrived at 4 o'clock last evening from Pittsburg. They are to be employed on the grade of the new track which is to be put down between Lima and Elida, on the Pittsburg, Fort Wayne and Chicago road. They arrived bag and baggage and will camp along the route. Work will be commenced on this end of the grade and be extended to Elida. When completed this new track will furnish an outlet to the continual freight blockades on that road." A force of men are working near this city.

The True Elixir Of Life Hood's Sarsaparilla

Hood's Sarsaparilla purifies the blood, builds up weak and debilitated systems, gives strength to weakened nerves, overcomes that tired feeling, tones the digestive organs, invigorates and regulates the kidneys and liver, expels disease and gives vigorous health. Young people say: "It is the best medicine we ever took." Old people say: "It makes us feel young again."

THE papers report an enormous number of cases of men who become suddenly insane and attack their wives and children with murderous intent. The cause of all such dreadful signs of homicidal mania who else the victim might be secured before disaster occurs, seems to be an over-sight of Providence. Come to think of it, though, the sight may be there in each case if the unscientific mind could but read it.

REPRESENTATIVE WILLIAM MARTIN, of Texas, who had a good deal of fun poked at him during the last session of Congress, is the heaviest smoker in official life at Washington. He is always smoking cigars. He is not particular as to the brand, quality, style, or price. All he requires of a cigar is that it draw well.

IN Russia women are not allowed to practice medicine before reaching the age of forty years. In free America every woman feels herself fully qualified to practice medicine as soon as she owns a baby or can borrow one of her neighbor to experiment on.—*Terre Haute Express.*

Nature in Convulsion

Is terrible. When eruptions, evidences, carbuncles and sores are visible on the surface of the body, it is plain that the blood only requires purifying to clear it of impurities. Ayer's Sarsaparilla is the most effective blood purifier, and has been for many years, in all parts of the world, where such diseases prevail. Such is the effect of the old-fashioned Alterative, prepared by the scientific skill and accuracy in the chemical part, in the human frame
